BIKINI FITNESS

2017

BIKINI FITNESS

The IFBB SA has established the need for “an in between division” called FITNESS BIKINI for the girls that are not quite BEACH.

For the Fitness Bikini athlete balance of the upper and lower body is important, the athlete should present herself in a healthy and attractive total package. She needs to be comfortable with who she is and with her body – and she must bring her personality. The assessment should take the whole physique into account. The assessment will start beginning with a general impression of the physique, should take into consideration the hair and facial beauty; the overall body development and shape; the presentation of a balanced, symmetrically developed, complete physique; the condition of the skin and the skin tone; and the athlete’s ability to present herself with confidence, poise and grace.

The physique should be assessed as to its level of overall body tone, achieved through athletic endeavours and diet. The body parts should have a nice and firm appearance with a decreased amount of body fat. The physique should neither be excessively muscular nor excessively lean and should be free from muscle separation and/or striations. Physiques that are considered too muscular, too hard or too lean must be marked down.

The assessment should also take into consideration the tightness and tone of the skin. The skin should be smooth and healthy in appearance, and without cellulite. The face, hair and makeup should complete the ‘total package’ presented by the athletes.

The judge’s assessment of the athlete’s physique should include the athlete’s entire presentation, from the moment she walks onstage until the moment she walks offstage. At all times, the Bikini-fitness competitor must be viewed with the emphasis on a healthy and fit physique, in an attractively presented “Total package”.

Judges are reminded that this is not a bodybuilding contest. The competitors should have shape to their muscle but not the separation, definition, very low body fat level or hardness that is seen in the body fitness competitors. Any competitor who exhibits these features is to be marked down.

This division is for the girl who has a fit and firm appearance.

The following will be taken into consideration

- Overall figure tone
- The presentation of a healthy, balanced & symmetrical figure
- She cannot appear to be too lean and tight
- Femininity
- Complexion
- Hair and make up
- Poise and grace
- Confidence
- Overall presentation

The attire and other general requirements

The athletes will wear a two-piece bikini and will conform to the following criteria:

- The bikini will be opaque two-piece in style. The colour, fabric, texture, ornamentation and style of the bikini as well as the colour and style of the high-heels will be left to the competitor's discretion. There are no limitations on rhinestones or 'bling' on the bikini. The sole thickness of the high-heels will have a maximum of 1cm and the stiletto height will be a maximum of 12cm.
- Platform shoes are not allowed.
- For bikini sizes and shoe styles please see "**Section Five**" at the end of this manual.
- The bottom of the suit must be V – shaped. No thongs/G-strings are permitted. At least 30% of the buttocks should be covered as well as the lowest part of the abdominal.
- All swimsuits must be in good taste.
- Competitors must wear high heels to complement their costume choice (i.e. pretty open sandals or closed pump style shoes).
- Competitors may wear jewellery.
- Hair should be styled appropriately.
- Make up should be applied tastefully (and more naturally).
- The competitors may use tan, but not use oils or sparkles/glitter – she must have the appearance of a wholesome, fit and naturally tanned beach body.
- The athlete must wear her bikini and shoes at weigh in.

Selecting a bikini costume for yourself, take into consideration your body's proportions. If your torso is longer than average do not choose a very small (low in abdominal part) bottoms as this will give the

appearance of elongating your torso making it appear even longer. Most women look good in medium size and style bottoms. Smaller (lower in the abs region) bottoms might be considered by women with short torsos, which is rather rare. If you have shorter legs, choose a swim suite bottom which has straps that sit higher on your hips, as this will give the appearance of a longer leg. If you have long legs use a swim suit bottom that sits lower on your hips as this will give the illusion of a shorter leg.

There are two rounds for this division
